

Ladies Singles Knockouts 2023

TO BE PLAYED BY:

END JUNE END AUGUST END OCTOBER END DECEMBER

Please Note: The Player that is on the bottom line of the draw, is the challenger, the player on the top line is the opponent. Once the challenger has challenged the opponent twice (dates to be recorded on the chart) and the opponent is unavailable both times, the challenger takes the match. If the challenger makes no attempt to arrange a mutually acceptable date, the opponent must consult with the knockout referee as games must be played within the stipulated time. In the event of a participant falling ill or unable to play the match before the stipulated date and an extension cannot be granted the other party will take the match. When determining a date, please make sure that it is NOT on a major competition day like President's or Captain's day where the fields are larger than normal and the draw is a seeded one.
